

Crime Prevention Policy

Regulatory compliance

Drillco Tools will carry out, promote and practice in all its activities and actions respect for the current legal framework, adherence to its institutional values and the ethical principles applicable to business management. To this end, it will permanently promote the development of an organizational culture oriented towards due regulatory and ethical compliance, rejecting the obtaining of any illicit benefit in the development of its activities.

With the foregoing, the Company seeks to prevent, detect and eradicate any illegal action that could be carried out in its name or benefit, especially the crimes established in Law 21,595, on Economic and Environmental Crimes. To this end, the Compliance Model is implemented, consisting of a process of prevention and monitoring of activities, habitual and sporadic, that are exposed to the risks of committing crimes indicated in the Law.

The company will ensure that this model of organization, administration and supervision is maintained adequate for the prevention of the crimes referred to in Law 21,595, called "Drillco Tools Compliance Model.

Drillco Tools requires its directors, managers, executives, collaborators, suppliers, customers, contractors, subcontractors and temporary personnel or third parties of Drillco, to behave uprightly, strictly and diligently, in compliance with the regulations on Crime Prevention.
